

**NOTICE OF CALL FOR EXPRESSIONS OF INTEREST MON/006 • 18 1217**

**Acquisition of professional services for the preparation of detailed architectural and engineering designs, bill of quantities and specifications complete and ready for tendering the construction works of a new building for the National Cardiovascular Centre (NCC) in Ulaanbaatar, Mongolia**

Maximum budget: 1,200,000 EUR – performance period of eight (8) months

The Luxembourg Development Cooperation Agency (LuxDev) launches, on behalf of Project MON/006 receiving financial support from the Governments of the Mongolia and the Grand Duchy of Luxembourg, a Call for expressions of interest for the acquisition of architectural and engineering services for the spatial planning and preparation of detailed designs and specifications for the construction of a new building for the National Cardiovascular Centre (NCC) in Ulaanbaatar, Mongolia. The sets of designs, plans, bills of quantities (BoQ) and specifications resulting from the services must be complete and ready for tendering the construction works of the NCC.

Services providers that are invited to express their interest to offer the services mentioned above are: all legally established firms and/or consulting companies, or grouping of such, which are governed by private law (excluding non governmental organisations, not-for-profit organisations and public operators).

These services providers must be specialized in multidisciplinary consultancy for the preparation of detailed architectural and engineering designs for the constitution of complete tender packages for the construction of large structures of a complex and a high technology nature, according to state-of-the-art European and international standards.

Indicatively, services providers will have to demonstrate their technical capacity and experience in *hospital and clinical buildings design and construction*, preferably related to cardiac surgery and invasive cardiology, comprising radiology rooms, catheterization labs/electrophysiology units, operating/cardiac resuscitation theaters, etc. This demonstration of experience must highlight their best practices in the design of energy efficient, environmentally friendly, and low maintenance hospital buildings.

The start of the contract is foreseen for April 2019, with an intended duration of eight (8) months. Services providers must be available for the entire period foreseen and willing to intervene in Ulaanbaatar, Mongolia. In compliance with the Construction Law of Mongolia, the selected tenderer will need to associate with a local architectural or engineering firm for the duration of the Contract.

The maximum budget available for this contract is estimated at *one million two hundred thousand Euros (1,200,000 EUR)*, all taxes excluded.

Interested services providers are invited to submit sufficient documentation to respond to the selection criteria. The dossier, including the selection criteria and the application form is available on request at the address given below.

The shortlist of candidates invited to submit a full offer will be established of minimum three (3) and maximum eight (8) candidates evaluated as qualified and ranked if necessary against the selection criteria.

Expressions of interest, exclusively drawn up in English, must reach the following address by email no later than **22.01.2019 at 10H00 a.m.** (local time):

**Project MON/006**

Email: [mon006-18-1217-design-ncc@luxdev.lu](mailto:mon006-18-1217-design-ncc@luxdev.lu)

Requests for clarifications shall be sent to the email address given above.

**Only shortlisted candidates will be invited to submit a full offer.**
